[redacted] 25X1

Dear Lou:

After receiving your letter of 9 December, I checked with [redacted] 25X1
25X1 [redacted] both in regard to your terminal leave and retirement payment and your BEC claim.

Both items appear to be more or less enmeshed in administrative red tape, although I am hopeful that the terminal leave and retirement payment will be made within the next few days. Apparently a check has been prepared which I am told will be released as soon as a paper of some sort is furnished the Finance people. George tells me that he forwarded the necessary document to them today so I don't think there will be much further delay on this item.

With regard to the BEC claim, George tells me that it has been necessary, as in all BEC cases, to secure certain background material and supporting documents. He informs me that this processing is practically complete and that the file will go forward to the BEC next week.

Please let me know if the terminal leave payment is not made within the next ten days so I can take more forceful action to shake it loose. Meanwhile please accept my apologies for the delay, although I must plead not guilty.

Sincerely yours,

[redacted] 25X1
